

## Leisure and Hospitality

We have seen our leisure and hospitality sector grow with a range of clients from gambling and holiday parks to hotels, restaurants, pubs and contract caterers.

We have worked with many entrepreneurial clients in this sector from start up to listed companies and all that encompasses. We offer practical commercial advice taking into account the legislation and statutory position as well as the operational and practical issues.

Our knowledge of this sector means we understand how critical obtaining key financial information is in managing and monitoring these operations whatever hours they operate.

We are often the sounding board to our growing clients not just on financial issues but general business and legal areas and can often find other professionals who are specialists in this sector to help.

We are happy to talk to you if you are opening your first site or need assistance in how to take the next step in operations and strategy to branch out with multiple sites or even how to go about developing an exit strategy.

Our experience therefore covers from start up to the sale of multi sited, multi branded operations.
