

Mergers, acquisitions and acquisition searches

A merger or an acquisition can only work as part of a well formulated business strategy that also takes into account post transaction issues, such as psychological impact, physical alterations and change management.

At Devonshire Corporate Finance Limited, we will help you to review your long term aspirations and decisions on whether a merger or an acquisition is indeed appropriate for your business. We will then use our understanding of your long-term objectives to develop suitable criteria for the assessment of potential targets.

At Devonshire Corporate Finance Limited, we always allocate a Director to be dedicated to your transaction. This ensures that you will always be fully informed and that proactive advice is available when you require it, helping to ensure that the deal does not falter in the critical stages.

Our innovative M&A offering enables us to complete, structure and find transactions to the benefit of our clients through lateral clear thinking.
